

FARMYARN®

FOR GARDEN & AGRICULTURE

What is FARMYARN?

FARMYARN is a unique, elastic, multipurpose yarn made from 100% recycled textile selvages, a by-product of garment production. Selvages are normally thrown away, creating a lot of waste that sits in landfills. Our team uses a unique method (patent pending) to repurpose these selvages by turning them into a "yarn" that is cord-like in function and appearance.

**REUSABLE - WEATHERPROOF - MOISTURE WICKING
ELASTIC & SOFT - STRONG KNOT STRENGTH
LASTS MULTIPLE SEASONS - WILL NOT HARM PLANTS
HOLDS FAST - EASY TO USE - MANY COLORS**

Why use FARMYARN?

- Reduce waste: FARMYARN is 100% recycled, reusable, sustainable, replaces plastic/single use products
- Reduce choking: FARMYARN is soft and elastic and will not harm plants or restrict growth
- Reduce cost: FARMYARN lasts multiple seasons, yields more ties per foot and is completely multipurpose

VINES - APPLES - BERRIES - BEANS - PEPPERS - CUCUMBERS - TREES - LANDSCAPING - FLORISTRY

trellising - training - tying
tagging - cordoning - bundling
hanging - wrapping
